Politeknik Elektronika Negeri Surabaya

Informatics Engineering - IPK present (3.64)   **Aug 2022 - Present**

PROJECT

Starter Template Dashboard Laravel

Zera Dashboard Laravel

- The Open Source Starter Template Dashboard for Laravel uses the splade package and the Daisy UI Component.
- This template has several components and an attractive dashboard design with several helpers to make it easier to develop applications and documentation to make it easier to use with the help of my colleagues.

Survey Information System

Survey Information System Web

- This web information system is to facilitate the management of surveys that have been filled in by applicants who go to the investment office, who previously used the Google form to fill out surveys.
- In this information system there are filters to handle surveys in the form of date ranges, checkboxes for answers from applicants, etc. and also has an export feature for daily or weekly reports.

Blog Post Web Splade

Blog Splade

- A SPA website to publish news posts or blogs with various features by slicing designs from several website references. The features are search, post filters, post category filters, post likes and comments, post reports. All features work well with good RBAC

System Inventory Web

System Inventory App

- Website for inventory management, purchasing, sales, and manager with RBAC running well

Counseling Guidance Recording Information System

Counseling Guidance Recording Information System

- Website that manages information sources on Regulations, Violations, Order Awards, Counselling, Home Visits and Student Calls. On this website there is also a recap of violations and awards, lots of filters and a beautiful and optimal dashboard.
- For the frontend system, use NextJS from refine.dev. Backend uses AdonisJS with RBAC and JWT http-cookie which is safe from both the client and server sides. And it's also equipped with PWA so it's easy to access

SKILL

Frontend Development

- Languages: HTML, CSS, JavaScript, TypeScript (basic)
- CSS Frameworks: Bootstrap, Tailwind CSS
